 Labor Law
 Professional Responsibility
 Real Estate
 Remedies
 Sales
 Securities

Tax Law
 Trademarks
 Trial Advocacy
 Wills & Trusts

Student Access Options:

Most students run CALI Lessons on our website: <http://cali.org>. For full access, students only need to enter your school's student authorization code the first time they create an account at our website. The code is available from your school's CALI contact (<http://cali.org/contacts>) or a librarian.

If they need offline access, students can install the library of lessons on their computer from the CALI DVDs. Your school's contact will know where to find CALI DVDs. The CALI lessons may also be installed on computers at your school. Check with a librarian or the tech staff for the location of the computers with CALI lessons.

There are not a lot of high quality, professor-authored study materials freely available to law students. CALI Lessons are just that. Suggest or assign specific CALI Lessons to your students. They will thank you.

What Law Students Say:

"Having immediate feedback with an explanation is very valuable."

"They are an excellent supplement to class lectures."

"Extremely useful in testing knowledge of the material."

"Great way to reinforce what you have read and to apply it."

"Great review and practice questions."

"...a very effective tool for understanding difficult concepts."

"Helpful self-check to see what you know and what your weaknesses are."

"Helps with issue spotting in preparation for exams."

"...helps in understanding how concepts and rules weave together as you work through a hypothetical."
